HEADQUARTER

G.A. Ricambi is an Italian company leader in the supply of spare parts for earthmoving machinery, trucks and industrial vehicles.

The company headquarters is an innovative structure, designed for the future and for the protection of the environment.

It extends across an area of 20,000 square meters, of which 15,000 are covered.

All is entirely managed by a system of building automation, in which a solar system and a geothermal plant permit reliance upon an inexhaustible energy source, constantly available and above-all renewable.

AEO
Authorized Economic Operator

G.A. RICAMBI in 2020 obtained the **REX Certification**. The REX system is used for the certification of origin under preferential trade agreements.

This system simplifies customs export procedures by allowing registered exporters to certify preferential origin by means of a declaration on an invoice or other commercial document.

G.A. RICAMBI obtained approved **exporter status** in 2020. Approved exporters can issue declarations of preferential origin on the invoice, regardless of the value of the goods exported. These declarations replace the Eur1 certificates of origin as proof of the preferential origin of the goods.

G.A. RICAMBI in 2021 obtained the **AEO (Authorised Economic Operator)** certification, in order to acquire a clear position in the international trade supply chain, to be recognized as a reliable partner and above all by the world customs to ensure benefits for customers. The recognition of AEO status, however, allows economic operators to benefit from advantages and facilities of a direct and indirect nature in relation to the customs relevance operations performed.
